DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 29 is rejected under 35 U.S.C. 102(e) as being anticipated by Fischer (U.S. Pat. No. 6,616,184)

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Fischer discloses a vehicle occupant protection device for helping to protect a vehicle occupant, where the inflatable vehicle occupant protection device has a deflated condition and an inflated condition. An inflation fluid source (16) is actuatable to provide inflation fluid to inflate the protection device from the deflated condition to the inflated condition. A housing (18) helps to direct inflation fluid from the inflation fluid source toward the protection device upon actuation of the inflation fluid source.

A tether (110) restrains deployment of the inflatable occupant protection device, where the tether has a first end (portion of tether connected to airbag) fixed to the inflatable vehicle occupant protection device for movement with the inflatable vehicle occupant protection device and a second end (112) fixed to the housing. A first actuatable fastener (80) has a shank (76) with a first portion (portion of shank above flange 86) that is connectable with the tether at a

Art Unit: 3616

location between the first and second end (Figure 8) and a second portion (portion of shank at and below flange 86) connectable with the housing to restrict movement of the inflatable vehicle occupant protection device with respect to the location. The actuatable fastener is actuatable to fracture the shank and release the tether for movement with the inflatable vehicle occupant protection device to restrict movement of the inflatable occupant protection device with respect to the second end (column 6, lines 1-4).

Allowable Subject Matter

3. Claims 1-11, 20, 21, 25, 28, and 30-33 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claim 29 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Drew J. Brown whose telephone number is 571-272-1362. The examiner can normally be reached on Monday-Thursday from 8 a.m. to 4 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul N. Dickson can be reached on 571-272-6669. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
